

Eyes Of The Storm

“An intense, immersive deep dive into a wild, dangerous, and unknown world, written with the pace and appeal of a great thriller. This is nonfiction at its very best.”—Lee Child The true story of two doomed ships and a daring search-and-rescue operation that shines a light on the elite Coast Guard swimmers trained for the most dangerous ocean missions In late September 2015, Hurricane Joaquin swept past the Bahamas and swallowed a pair of cargo vessels in its destructive path: El Faro, a 790-foot American behemoth with a crew of thirty-three, and the Minouche, a 230-foot freighter with a dozen sailors aboard. From the parallel stories of these ships and their final journeys, Tristram Korten weaves a remarkable tale of two veteran sea captains from very different worlds, the harrowing ordeals of their desperate crews, and the Coast Guard’s extraordinary battle against a storm that defied prediction. When the Coast Guard received word from Captain Renelo Gelera that the Minouche was taking on water on the night of October 1, the servicemen on duty helicoptered through Joaquin to the sinking ship. Rescue swimmer Ben Cournia dropped into the sea—in the middle of a raging tropical cyclone, in the dark—and churned through the monstrous swells, loading survivors into a rescue basket dangling from the helicopter as its pilot struggled against the tempest. With pulsating narrative skill in the tradition of Sebastian Junger

and Jon Krakauer, Korten recounts the heroic efforts by Cournia and his fellow guardsmen to haul the Minouche's crew to safety. Tragically, things would not go as well for Captain Michael Davidson and El Faro. Despite exhaustive searching by her would-be rescuers, the loss of the vessel became the largest U.S. maritime disaster in decades. As Korten narrates the ships' fates, with insights drawn from insider access to crew members, Coast Guard teams, and their families, he delivers a moving and propulsive story of men in peril, the international brotherhood of mariners, and the breathtaking power of nature. Praise for Into the Storm "The story [Tristram] Korten tells is impressively multifaceted, exploring everything from timely issues such as climate change to timeless themes such as man's struggle against the ocean's fury."—Miami New Times "Into the Storm is a triumph of reporting and you-are-there writing that becomes a deeper tale—with more implications about our own lives—with every chapter."—Robert Kurson, New York Times bestselling author of Shadow Divers

Cholene EspinozaóAir Force Academy graduate, former U-2 reconnaissance pilot, and embedded Iraq War journalistórediscovers hope and purpose in the aftermath of Hurricane Katrina. With her partner, a close friend, and a truck packed with supplies, Espinoza drives

into the Deep South with misgivings and self-doubt. Once in DeLisle, Mississippi, she meets Rev. Rosemary Williams, pastor of the Mt. Zion Methodist Church. Williams is at the center of local relief efforts, and from her damaged church she gives survivors comfort—not just spiritual comfort, but food, shelter, clothing, and love. Espinoza finds her own struggles overwhelmed and transformed by the stories of Katrina's survivors. Espinoza details the seemingly insurmountable red tape, systemic barriers, and inequities in disaster assistance for people who have no means to complain or demand better. Common stereotypes about race, religion, poverty, government assistance, single parenthood—even our notions of charity—are challenged when seen through the eye of the storm. This is a story of loss and recovery, of the ravages of disaster and the healing power of community.

Peter Ratcliffe served in the SAS for twenty-five years.

Blooded in Oman in the 1970s, he also saw action in Northern Ireland, in the Falklands War, and in the Gulf campaign. From his early days in the Paras to his time as Regimental Sergeant-Major in the Gulf, he has lived and fought by the motto 'Who Dares Wins'. Eye of the Storm is his insider's account of that exceptional career. Fastpaced, earthy, dramatic, funny, occasionally disturbing, it is laced with firsthand descriptions of ferocious and bloody fighting, sudden death and incredible heroism, and peopled with a cast of extraordinary individuals. Beyond that, however, it corrects many of the distortions and exaggerations of other

books, and explodes several long-standing myths about the Regiment. Here - at last - is the authentic voice of the SAS. This enhanced edition contains additional audio and text material: - Audio Recording of an SAS Firefight in Oman, 1973 - The Little Book of SAS by Peter Ratcliffe, an extensive glossary of SAS terms

Universities and colleges have been under severe pressure to expand student numbers in order to fulfill new and more business-like approaches and to raise levels of efficiency and quality. Over the coming years, institutions of higher education will face increasing competition for students and funds, as well as the need to prove their relevance to society and become an integral part of the global information economy of the 21st century. They are confronted with such important questions as: How is higher education meeting this challenge? How far is the pressure for change reflected in the institute's working practices? This volume contains a series of chapters that focus on the institutional dimension of higher education policy. They have been written by researchers from the Center for Higher Education Policy Studies (CHEPS) of the University of Twente (The Netherlands) in collaboration with some of their colleagues from outside the Center and cover a broad range of areas in which the Center has been actively involved over the past 15 years.

In 2004, internationally known physicist Haim Harari was invited to address the advisory board of a major multinational corporation. In a short speech he offered a penetrating analysis of the components of terror, and presented a passionate call for a new era in the Middle East. The speech, entitled "A View from the Eye of the Storm," was not intended for publication, but when a copy was leaked and posted onto the Internet, it caused a worldwide sensation, eventually being translated into more than half a

dozen languages. Now—as the modern era of Islamic terror continues to unfold—Harari reaches further, to offer this serious yet accessible survey of the landscape of Middle Eastern war and peace at this challenging crossroads in history. Moving beyond the sterile discourse of foreign affairs journals, Harari encourages the world to view the Middle East through the eyes of a "proverbial taxi driver," a man on the street whose wisdom (and sense of humor) outstrips that of the experts. And, as he observes, to anyone familiar with the Middle East from a taxi driver's perspective, the "persistent ugly storm" engulfing the Arab world is far more than a territorial battle with Israel: It is an "undeclared World War III" that rages from Bali to Madrid, from Nairobi to New York, from Buenos Aires to Istanbul, and from Tunis to Moscow. The sad result is that much of the Arab world has become an "unprecedented breeding ground for cruel dictators, terror networks, fanaticism, incitement, suicide murders, and general decline." And unless the free nations of the world mobilize to stop it, Harari argues, this new world war will continue to cause bloodshed on all continents. As a fifth-generation Israeli-born observer, Harari includes a thorough response to the conventional wisdom about Middle Eastern affairs, including a frank dissection of the media's lopsided portrait of the Arab-Israeli conflict. Drawing on his family's two centuries of life in the Middle East, he offers a compelling catalog of the steps necessary to reach a lasting peace between Israel and the Palestinians—steps, he writes, that are "inevitable—not because everybody accepts them today, but because all sides must accept them before peace can be achieved." And he urges the civilized world to combat terror by isolating its state sponsors, blocking its funding, and promoting education, women's equality, and human rights reform. Eloquent in its simplicity, written with passion, humor, and the directness of a scientist who has spent a

lifetime explaining his work to the general public, *A View from the Eye of the Storm* is that rare book with the power to change hearts and minds.

Jaden's summer visit with her meteorologist father, who has just returned from spending four years in Russia conducting weather experiments not permitted in the United States, fills her with apprehension and fear as she discovers that living at her father's planned community, Placid Meadows, is anything but placid.

This book shares how our Lord can speak to us during the storms of our lives. His words are faithful and true.

As we are on this journey of life, we experience situations to help us to know that God is with us at all times. His words say that He never leaves us or forsakes us, as we walk out His purpose for our lives.

We grow stronger and wiser, as we learn to trust in Him. He is our Father God, and we are His children.

When we grow thirsty in the desert times, He is there to give us the Living Water, Christ Jesus, His Son. As you read these words, I pray that they will be a blessing to you and help you to trust in your faithful Father God.
