

# Law Notes

This book fills an important niche in legal-writing literature by teaching law students how to write scholarly papers for seminars, law reviews, and law-review competitions and how to have their work recognized. It helps novices and more experienced scholars alike to write papers with a minimum of anxiety and a maximum of creativity. Employing a process theory of writing, the text first describes the enterprise of scholarly writing and then discusses techniques for brainstorming topics and theses, researching, drafting, and revising for substance and style. It covers both traditional doctrinal topics and newer areas like empirical studies. There are also chapters on footnotes, avoiding plagiarism, law review practice, and dissemination of student work through publication and submission to national writing competitions. Appendices provide a sample law-review competition paper, answers to in-text exercises, sample syllabi for scholarly writing courses, and a rubric for evaluating and editing scholarly papers and articles.

*Essential, required reading for doctors and patients alike: A Pulitzer Prize-winning author and one of the world's premiere cancer researchers reveals an urgent philosophy on the little-known principles that govern medicine—and*

*how understanding these principles can empower us all. Over a decade ago, when Siddhartha Mukherjee was a young, exhausted, and isolated medical resident, he discovered a book that would forever change the way he understood the medical profession. The book, *The Youngest Science*, forced Dr. Mukherjee to ask himself an urgent, fundamental question: Is medicine a “science”? Sciences must have laws—statements of truth based on repeated experiments that describe some universal attribute of nature. But does medicine have laws like other sciences? Dr. Mukherjee has spent his career pondering this question—a question that would ultimately produce some of most serious thinking he would do around the tenets of his discipline—culminating in *The Laws of Medicine*. In this important treatise, he investigates the most perplexing and illuminating cases of his career that ultimately led him to identify the three key principles that govern medicine. Brimming with fascinating historical details and modern medical wonders, this important book is a fascinating glimpse into the struggles and Eureka! moments that people outside of the medical profession rarely see. Written with Dr. Mukherjee’s signature eloquence and passionate prose, *The Laws of Medicine* is a critical read, not just for those in the medical profession, but for everyone who is moved to better understand how their health and well-being is being treated. Ultimately, this book lays the groundwork for a new way of understanding medicine, now and into the future.*

The grounds of the decision are those stated by Farwell, J., whose decision is restored, viz., that "If the Legislature has created a thing which can own property, which can employ servants, which can inflict injury, it must lie to them (11) have the law given to them by its authority and procurement. "Yes," said the Court of Appeal, remarking "that at the time when Mrs. Melland gave the bill of sale to the claimant she was absolutely entitled to the goods, as sect. 8 of the Bills of Sale Act, 1878, which governed the present case, only avoided an unregistered bill of sale as against an execution creditor or trustee in bankruptcy of the grantor; that, as at that time there was no execution creditor of the defendant, who was the grantor of the original bill of sale to Mrs. Melland, her title was a good title at that date, and that therefore the claimant had a good title to the furniture the subject of the mortgage." (C. 272.)
