THE
INTERNATIONAL
COMMUNITY
recognizes that

Page 29/134

early childhood
intervention (ECI)
addresses the
development of
infants and young
children who are
at risk of delay
because of
environmental
disadvantage or
biological risk as
well as the
population of

children with established disabilities (Guralnick, 2019). Some children with established disabilities will have delays in one developmental domain (e.g., physical or sensory), whereas others

will have delays
across multiple
domains.

and care (ECEC) services in England over the past 20 years. It describes the policy initiatives, educational interventions and research programmes introduced by successive governments that have effected

significant changes
to ECEC since
1990.
